TOTAL MONTHLY EXPENSES	\$	\$

Use this worksheet to record how much money you spend this month. (Relabel categories as needed.) You can download additional Monthly Budget Worksheets at www.parda.com to help you plan each month's budget.

QUICK TIPS for SUCCESS:

- Include all take-home income and expenses as accurately as possible.
- Some bills are monthly, some are quarterly or annual, and some expenses (like utilities) may change throughout the year. If an expense is not the same every month, keep track over several months and work toward finding an average.
